SAP Farm Management by Vistex
End-to-end solution for the sugar cane industry
Licensed, Premium Qualified and Supported by SAP

SAP Partner

Focus on key agroindustry elements

Streamline processes from field planning through harvest	Enhance visibility, save time, reduce risks	Identify cost per field and per task	Benefit from seamless integration to SAP ERP core modules

Single Source of Truth for the complete agro value chain

Deep Insight into farm performance

Features

Efficient Field Management:

■ Identify productive area, sugar cane variety, crop cycle (ratoon, stubble, full cycle), and crop season

■ Perform simulations that define operating budget and data considering field, tasks, and estimated harvest and planting date

■ Manage field task plans based on master records, scheduling, and unplanned tasks

■ Set up parameters for hydric balance calculation per field

■ Control agrochemical application for recommended dosage, incompatibility, and restrictions per region

Critical Operational Data:

■ Define costing models leveraging SAP for indirect costs, amortizations, supply-related consumption, services, and hours by person and machine

■ Record activities and consumption of resources either total or detailed (accomplishment sheet), considering specific units per task

■ Document employee and equipment requirements needed for task execution of agricultural processes

■ Track receipts of sugar cane production including:

  • Traceability of terrain of origin

  • Information related to cutting, loading and transport tasks

  • Details such as cutting type, resources, dates and time

Services

Land Preparation → Planting → Growing → Harvesting

Benefits

- Complete operation visibility from the field to sugar factory

- Improve efficiency due to greater operation insight

- Reduce costs on fertilizers, herbicides, and other agro supplies and resources with operational budget analysis

- Quickly and effectively calculate costs in agricultural processes

- Maximize collaboration, transparency, traceability, visibility, and compliance of agricultural processes

- View historical data by crop, field, and through activity level

SAP Farm Management by Vistex

End-to-end solution for the sugar cane industry

Licensed, Premium Qualified and Supported by SAP

Solutions for SAP

Innovative solution extensions for SAP software.

SAP resells these applications under the following names:

SAP® Business Suite

SAP Farm Management by Vistex

SAP® S/4 HANA

SAP Grower Management by Vistex for SAP S/4HANA

About Vistex®

Vistex solutions help businesses take control of their mission-critical processes. With a multitude of programs covering pricing, trade, royalties and incentives, it can be complicated to see where all the money is flowing, let alone how much difference it makes to the topline and the bottomline. With Vistex, business stakeholders can see the numbers, see what really works, and see what to do next – so they can make sure every dollar spent or earned is really driving growth, and not just additional costs. The world's leading enterprises across a spectrum of industries rely on Vistex every day to propel their businesses.
